Qualityze

Qualityze Training Management Solution
Ensuring ISO 9001 & Regulatory Compliance

Qualityze Training Management is a complete solution for ensuring employee job quality and compliance by managing personnel skill sets/ certifications and streamlining course management activities. The system fully supports organizational training processes and helps you to proactively respond to training inadequacies – enabling you to establish consistent, efficient employee behaviors that increase productivity, reduce job quality issues, and meet industry and regulatory requirements.

Certify Employees for Compliance

Qualityze Training Management helps you drive consistent certification process to employees based on their job function requirements. The compliance history capability verifies that a worker-maintained qualification throughout their employment. You can easily demonstrate that the employees are trained and knowledgeable about industry regulations, SOP revisions, and organizational processes.

Drive Efficient Training Processes

Qualityze Training Management's automated processes help you reduce training costs and shorten time-to-compliance.

Training Coordinators can easily set-up courses and schedules tied to specific requirements. Training Management allows you to match qualified personnel to job requirements easily. Roster tools also inform trainers who signed up for a class. Trainees benefit from online registration, automatic notifications, requirements tracking and task management capabilities. Trainers can set up initial, revision, and refresher certification requirements, and unique job function-specific policies can be configured on a single requirement. Finally, managers can create and review training programs and gain visibility into employee training and progress.

Improve Employee Effectiveness

Qualityze Training Management enables you to build training strategies that engage the right mix of personnel develop employee skills and increase worker effectiveness. Training exams verify that employees understand company processes. Completed assessment confirm when the training requirement fulfillment can be awarded. Gap analysis identifies when and where additional training is needed.

The system ensures that your company workforce understands your industry and organizational requirements and is qualified for job excellence.
Improve Organizational Oversight

Qualityze Training Management provides you with enterprise-wide visibility into training costs, needs and effectiveness so you can maximize training opportunities and accurately measure the ROI of training programs.

Facilitate IT and Regulatory Compliance

Qualityze allows you to automate your training processes with the confidence that your data is secure. The system provides profile-based security, powerful password authentication, and a complete audit trail. These features help you facilitate IT and industry compliance with requirements for the electronic signature and electronic records, such as FDA 21 CFR Part 11 and EU GMP Annex 11.

Qualityze – The Enterprise Quality & Compliance Management Platform

Qualityze's powerful suite of quality management modules are engineered for the manufacturing and Life Science industries. Built on Salesforce.com platform, Qualityze provides closed-loop process integration unmatched in the market. With electronic signatures, audit trails, validation packs and electronic reporting, Qualityze provides you control and confidence. That means you can focus on progress, not problems. Opportunities, not obstacles. Whether you are ready to automate a single process or optimize your entire quality management system, Qualityze prepares you to succeed.
